## WHAT IS THE EU – CELAC STRATEGIC PARTNERSHIP?

The **European Union** and **Latin America and the Caribbean** have enjoyed privileged relations since the first bi-regional Summit, held in Rio de Janeiro (Brazil) in 1999, which established a **Strategic Partnership**. Since then, the Heads of State and Government from both regions have met every two years.

One of the main aims of the **Strategic Partnership** is to deepen the bi-regional relations and develop a **joint global vision around topics of mutual interest**. The strong historical, cultural and economic ties between the countries of both regions create a solid basis for comprehensive dialogues at all levels and throughout a wide array of fields.

### Which is the current situation?

There is a widespread acceptance that EU-CELAC relations are not meeting the high expectations existing in both regions and that the bi-regional political dialogues risk losing relevance due to global power shifts, rise of new regional schemes and focus on bilateral relations, among other.

### How will EULAC Focus contribute?

EULAC Focus is a research project funded under Horizon2020 of the European Union for the period 2016-2019 with a clear aim of **strengthening the EU-CELAC**

**Strategic Partnership** by revigorating and strengthening existing initiatives and proposing new and innovative areas of cooperation between both regions in the fields of culture, scientific cooperation and social issues. The main activities are:

-  **ANALYSE** the institutional and political framework for the Strategic Partnership.
-  **CRITICALLY REVIEW** the bi-regional cooperation to date in the cultural, scientific and social areas.
-  **SURVEY** emerging trends and topics from bi-regional cooperation and initiatives in the three fields, identifying bright spots and successful initiatives.
-  **PROPOSE A SET OF SCENARIOS, VISIONS AND AN ACTION PLAN** for the bi-regional cooperation in cultural, scientific and social issues.
-  **FOCUS** specifically on the following cross-cutting issues: Mobility, Inequality, Diversity and Sustainability.
-  **ADDRESS** beneficiaries in both regions through dissemination of the research results, open source publications and conferences.

### What is an Associate Member?

**Associate Members** will be actively involved in the activities of the project and be able to **contribute with views and inputs** to the analysis and proposals of the project. As an **Associate Member** you will be part of an enlarged research network of institutions aiming at **moving EU-CELAC relations forward** !
